Meito Vietnam's Long An Branch Starts Operation

Meito Vietnam Co., Ltd., (hereinafter "Meito Vietnam") a subsidiary of Meito Transportation Co., Ltd., started operation of Long An Branch, Vietnam's third low temperature warehouse, on March 18.

Meito Transportation, a member of the Chilled & Frozen Logistics Holdings Co., Ltd. and a pioneer in cold food distribution, has invested in the Socialist Republic of Vietnam as a growth area. In 2014, we established the warehousing business, Meito Vietnam, and in 2016, we established the freight forwarding business, T&M Transportation Co., Ltd. We have also built a distribution network for low-temperature foods.

In recent years, demand for cold food in Vietnam has been increasing not only for frozen raw materials such as fish and shellfish, but also for frozen processed food. Therefore, Meito Vietnam expanded its storage capacity to capture its demand.

The new warehouse was established in the Tan Duk Industrial Park in Long An province next to the western part of Ho Chi Minh City. The warehouse is newly built by Daiwa House Vietnam Co., Ltd. and rented by Meito Vietnam. The specifications are one-story, with a total space of about 18,400 m² and storage capacity accommodating about 26,000 pallets. With the new warehouse, the storage capacity of Meito Vietnam has increased by approximately twice. In addition to the freezing temperature, the chilled temperature zone has also been set up to enable the handling of a variety of low-temperature foods. In recent years, many frozen food manufacturing plants have been built in Long An province. We look forward to new demand in this region.

Transportation in this area is also very efficient. It is 35 km from the center of Ho Chi Minh City, with major national roads and state roads available, and a new Loop Highway No.4 is planned to open in 2025. Meito Vietnam has two warehouses in Binh Duong province and a new warehouse in Long An province. It has a more efficient distribution network than ever, sandwiching Ho Chi Minh City from east to west.

Meito Vietnam can provide a higher quality and stable cold chain, and will contribute to the development of the region.

Overview of new warehouse

| | |
|-----------------------------|---|
